Education and work experience

In 2014 I have earned **Bachelor of Science** degree in **Computer Science** on **Faculty of Computer Science and Management** of **Wroclaw University of Science and Technology**.

Contracted work

September - October 2014
IT4Biznes Marcin Hatalak · RatingSpeed · Windows Phone app · C#, XAML

August - September 2014
IT4Biznes Marcin Hatalak · Fast-coffee · Windows Phone app · C#, XAML

February - March 2013
Cube Investments Sp.z o.o. · Kwejk.pl · Windows Phone app · C#, XAML

August 2010 - January 2011, November - December 2012
Red Dot Games · I Am Rich The Game · Windows PC, Store app · C++, C#, DirectX

September - November 2009
Red Dot Games · Platformer game engine · Windows PC, Xbox 360 · C#, XNA

Job paths

Since 2016
Full-stack web developer · JavaScript

2013 - 2016
Windows app developer · C#

Before 2013
Game developer · C++, C#

Skills

Web

JavaScript (ES6+) · React · Redux · HTML · CSS · Responsive design · node.js · Express.js · Flexbox · Server-side rendering
MobX · Babel · npm · Webpack · ESLint · Chrome DevTools · Jest · enzyme

Windows

C# · XAML · ASP.NET · LINQ · Entity Framework · MS SQL · IIS · Windows Phone · Windows Store · Microsoft Azure · MVVM

Tools

Visual Studio · Visual Studio Code · ReSharper · Git · GitHub · Google Analytics · CloudFlare

Languages

English (B2) · Polish (native) · JavaScript (ES6+) · C# · C++ · Haskell

Projects

Driving licence tests

Responsive web app to prepare for the polish driving theory test exam

My responsibilities
Writing the front-end with React.js, styling with CSS, designing resposive, mobile friendly views
Database design and implementation of static data as a code modules system
Open sourcing test questions and explanations along with an edit system based on Git
Implementing reactive view model using MobX and performance testing
Enabling server-side rendering using node.js on IIS with iis-node

Kwejk.pl

Kwejk.pl feed viewer application for Windows Phone

Client
Cube Investments Sp.z o.o.

My responsibilities
Development of Windows Phone application based on client's provided project using XAML, MVVM and C#
Integration with existing web APIs
Collaboration with the project owner and the rest of the team
Monetization through different ad networks
Deploying multiple updates after the release

Promegle

Anonymous Windows Phone and web chat application

My responsibilities
Writing the front-end with React.js, Redux and custom styling solution
Implementing message queue system and reactive immutable database solution
Implementing video calling over WebRTC along with the signaling server
Automatic image classification using Yahoo's Not Safe For Work deep neural model running on Docker
Integrating with legacy ASP.NET long polling back-end servers and C# code

RatingSpeed

Network speed measurement app for Windows Phone

Client
IT4Biznes Marcin Hatalak

My responsibilities
Development of Windows Phone application using XAML, MVVM and C#
Implementing network speed measurement, test results statistics and upload
Implementing the design provided by the client
Preparing app for publishing in the Windows Store and providing app updates

Interests and future goals

My interests

Functional programming, language design, deep neural networks, user experience design, app development, security, user interface design, dogs 🐕.

My goals

Learn Haskell well, contribute to an open source project, write more tests and explore TDD approach, increase presence on StackOverflow, give a public speach about programming.
